IMPORTANT RECALL NOTICE

High quality standards, safety and customer satisfaction have always been our prime concern.

LOOK Cycle has identified possible risk of fracture of the Aerostem CLAMP under highly corrosive environments, and we have therefore decided to proceed to a voluntary recall and free upgrade.

These clamps have been commercialized on 695 Light, 695 Aerolight since the 2014 range and on the 795 Light, 795 Aerolight since 2015 range.

Upgraded Aerostem Clamp is going to arrive to Hong Kong on 15 March 2017.
Look Aerostem owners are welcomed to send email to info@anjoycycle.com for free upgrade arrangement.
